

MEET EMBER

Make room for one thing.

A quiet pomodoro timer by kartenlabs.

THREE MODES

A rhythm that leaves room.

25 = 00

Focus

05 = 00

Short break

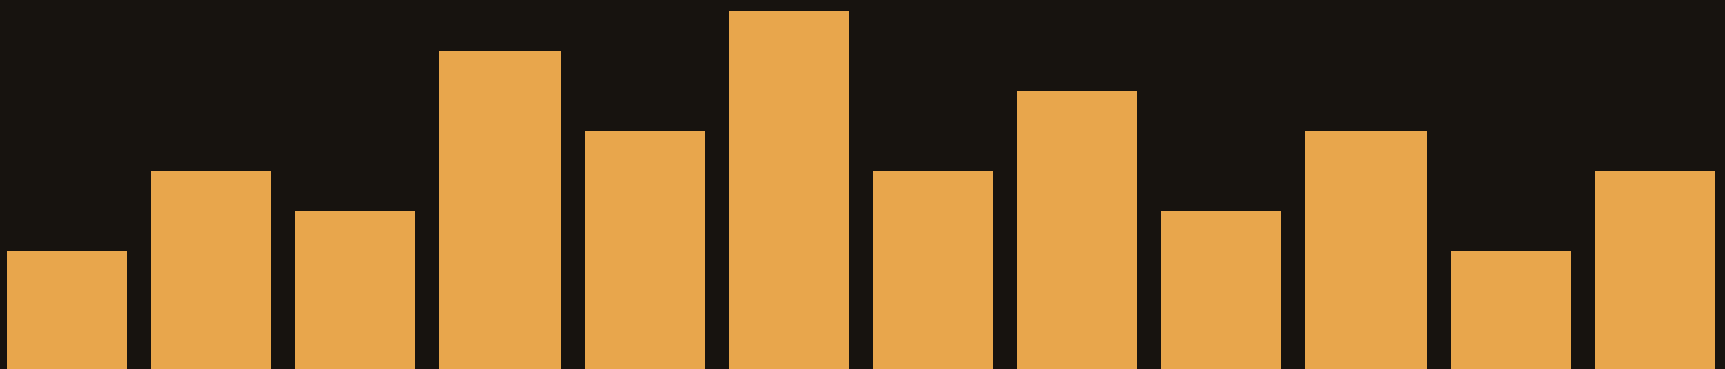

15 = 00

Long break

AMBIENT STATION

A soundtrack for your session.

Optional background music alongside
your timer, with its own playback controls.

Currently featuring Claude FM

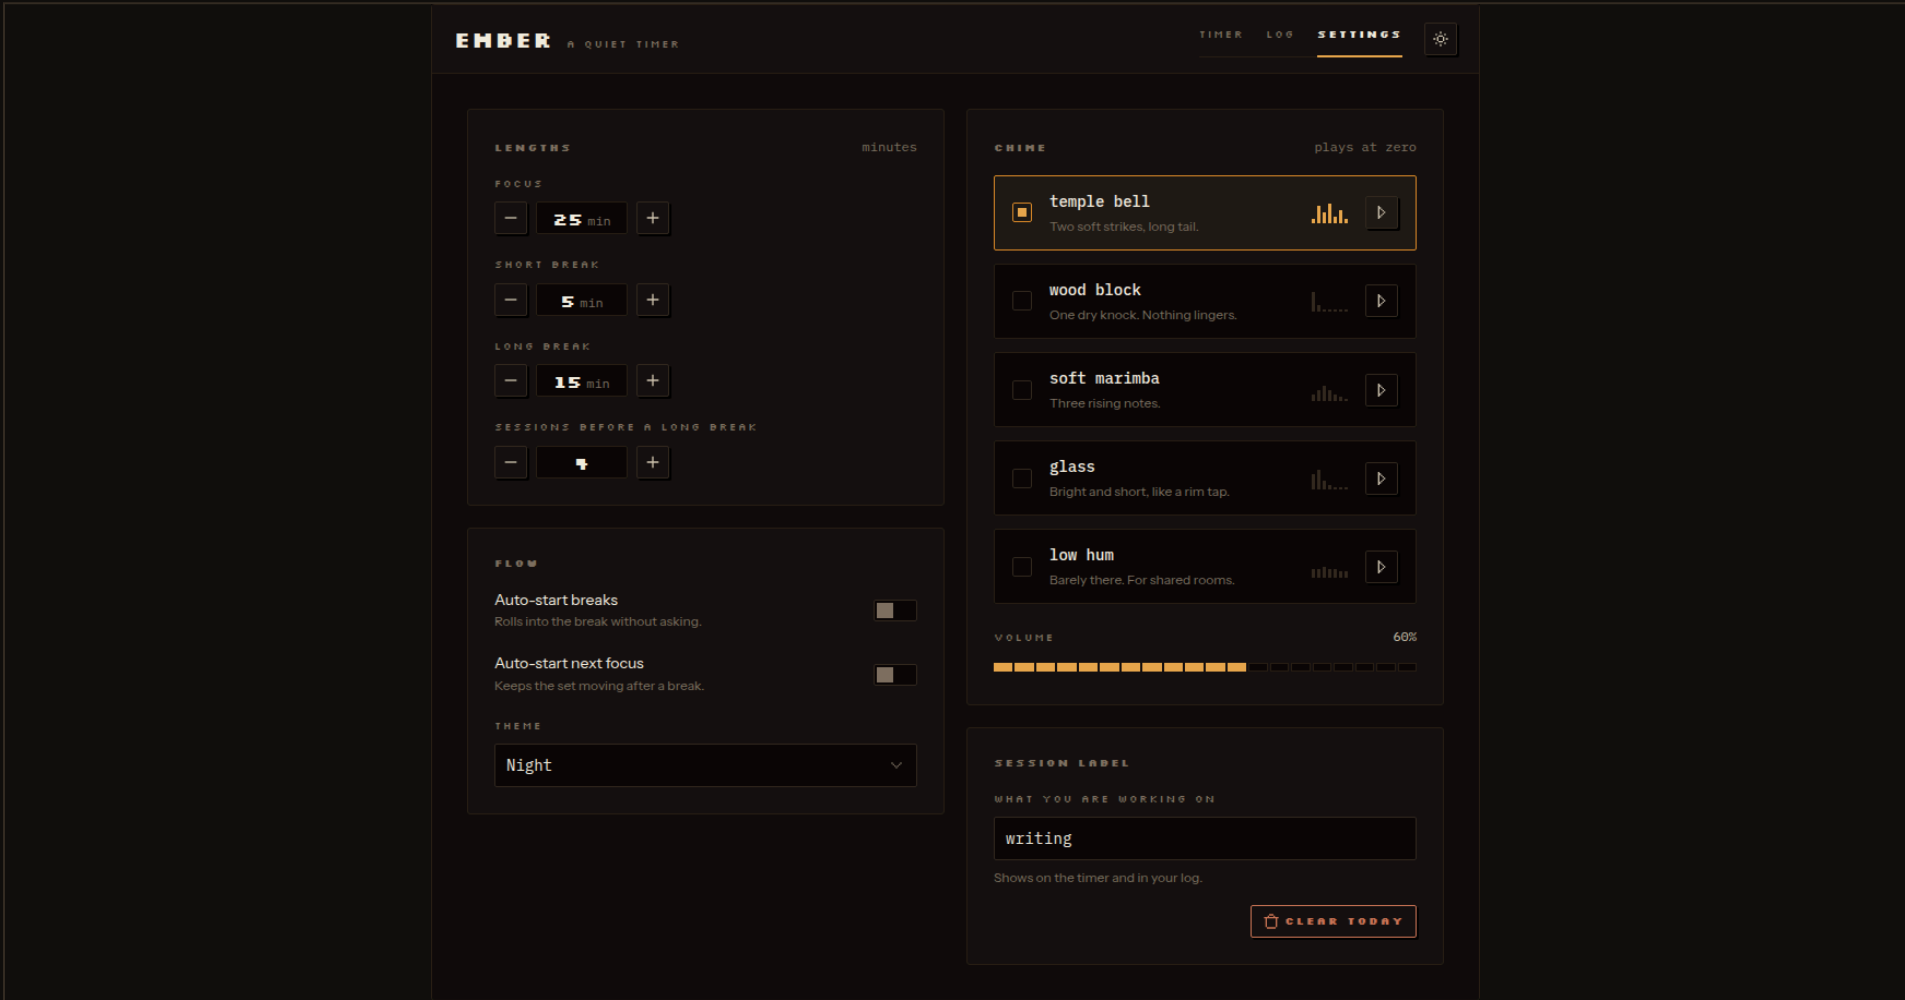

Music for thinking and building.

Stream by Claude, embedded via YouTube.
Ember is an independent kartenlabs project.

YOUR SETTINGS

Set the pace. Choose the sound.

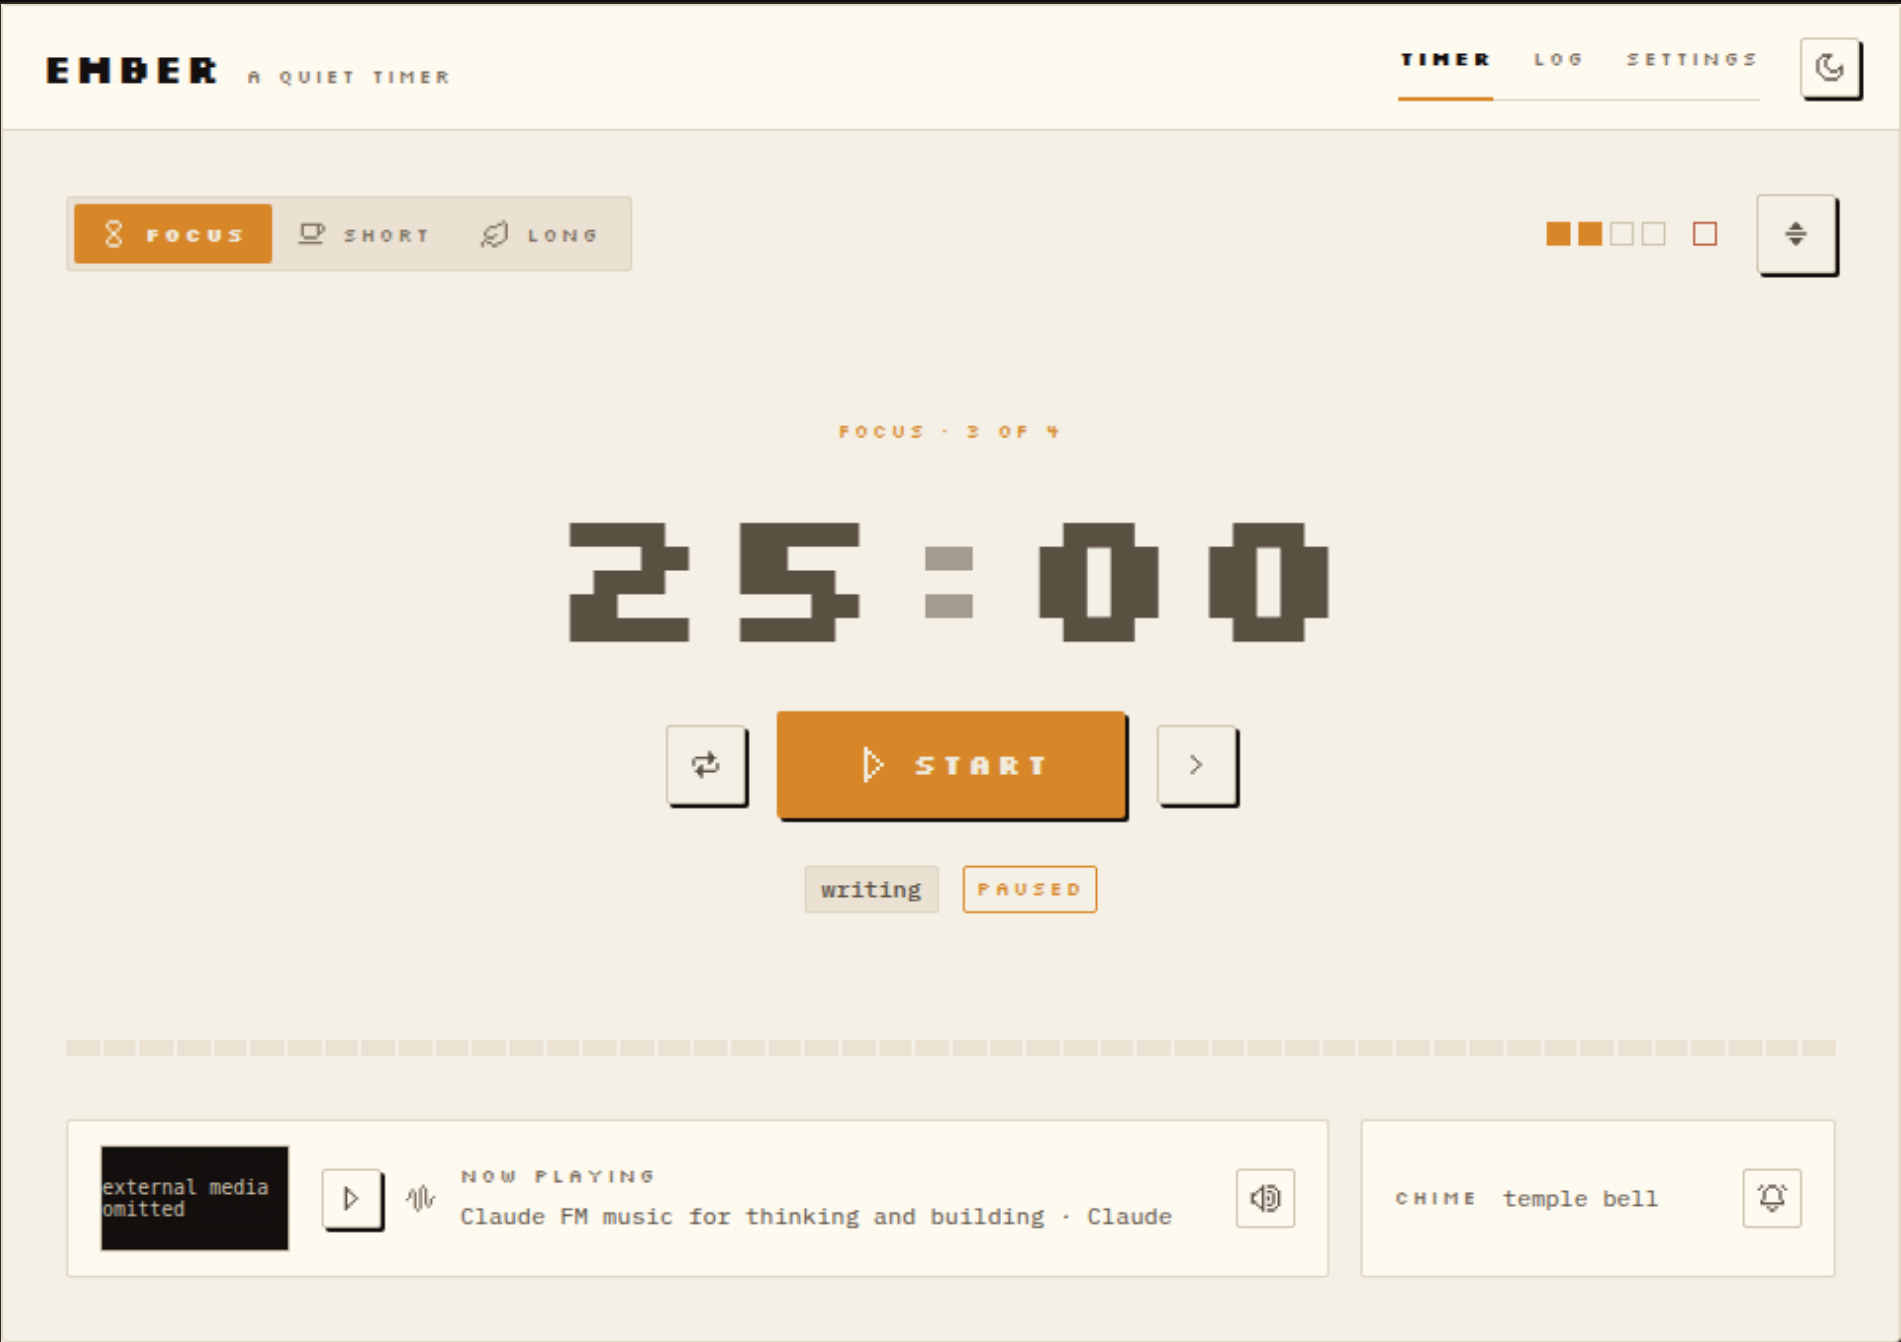

Adjust each block. Choose a chime.
Let the next session start automatically,
or take your time.

TWO THEMES

Night or Daylight.

The same quiet space, in a different light.

BUILT WITH CARE

Quiet on the surface. Careful underneath.

01 A deadline-based clock

The countdown follows elapsed time when you return to a backgrounded tab.

02 A session that stays yours

Started blocks retain their original duration and label when settings change.

03 A log that stays local

Settings and session history are stored in this browser.

A QUIET TIMER

Start with
one session.
